MICHELIN

12 to 15% Extra Weight

When you buy your next tire make this simple test. Let us weigh a Michelin Universal Tire in comparison with any other non-skid of the same size.

You will find the Michelin 12 to 15% heavier than the average, the exact percentage depending on the size of the tires used in the test.

This extra weight represents extra rubber and fabric, which means extra service.

CO-OPERATIVE BUYING WORRIES DEALERS

People Combine Their Requirements and Get Provisions at Low Prices.

PARIS, June 23.—(Correspondence of The Associated Press)—Co-operative buying by associations of consumers are fast developing from the present food situation in France. They are likely to assume such proportions as to worry the dealers who have profited from the state of war to exact war profits on provisions that have been so abundant as to justify normal prices.

A well known actress, a woman lawyer, and an authoress of renown form one of the "co-operatives" as they are called at the central markets. Three times a week they get out with their market baskets early enough to get to the "bailles" for the seven o'clock sales and by combining their requirements get nearly everything they need for the table at wholesale prices.

Provisions bought at the central markets are not delivered at domicile by the seller which has always been an obstacle to individual marketing there; the money saved was no more and often less than the price of a cab to carry the purchases home. The co-operative system removes this obstacle, the same cab delivers baskets of provisions to three or four families, leaving a good margin of profit on the day's marketing.

SACRED

Mountain of China is to Be Reforested by Government Authorities.

TAINANFU, Shantung province, China, June 23.—Mount Taishan, the famous sacred mountain of China, where Emperor Shun offered sacrifices to heaven twenty-three centuries before the Christian era, is to be reforested through an effort inaugurated by the Chinese department of agriculture and heartily supported by Christian missionaries and Chinese educators.

This sacred mountain, which rises 6,000 feet above the sea level, and has long been sought by tourists because of the wonderful contour of the peak and its historic temples, was denuded centuries ago of trees and its sides have been washed and cut by the freshets no longer checked by trees and grass.

Many trees were planted on the mountain at the time of feast of the tomb this year, which was celebrated as arbor day throughout China. A government official has been stationed here for the express purpose of looking after the reforestation of the mountain and a large track of land has been planted with seedlings, which will furnish trees to be replanted on the sacred mountains.

PORTUGUESE NAVY

Is Being Prepared for Service, and There is Much Activity Noticeable.

LISBON, June 23.—There has been great activity with regard to the Portuguese navy and its armaments during the last three months, since the state of war was declared in this country. Besides the repaired vessels, five ships—two of which were German—have been fully equipped and armed. Strenuous efforts are being made to obtain crews for other ships—thirty-six at Lisbon, and sixty-seven in all, including those in the colonies and islands. Sweepers and dozens of patrols have been annexed to the naval division, and these as well as two destroyers and two torpedo boats are constantly doing coast service. The sweepers have fished up all the mines spread by the Germans, which caused so many disasters near the flag.

The defense of the Port of Lisbon is well organized and divided into various sections, composed of batteries, searchlight platoons, etc., the whole forming a zone called here "The Field of War." Strict orders forbid the entrance of any ships after dark and at any time without an "initiated" pilot.

Why "Anuric" Is an INSURANCE Against Sudden Death.

Before an Insurance Company will take a risk on your life the examining physician will test the urine and report whether you are a good risk. When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or the twinges and pains of lumbago, rheumatism and gout. The urine is often cloudy, full of sediment; channels often get sore and sleep is disturbed two or three times a night. This is the time you should consult some physician of wide experience—such as Dr. Pierce of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Send him 10 cents for sample package of his new discovery, "Anuric." Write him your symptoms and send a sample of urine for test. Experience has taught Dr. Pierce that "Anuric" is the most powerful agent in dissolving uric acid, as hot water melts sugar; besides being absolutely harmless it preserves the kidneys in a healthy condition by thoroughly cleansing them. Being so many times more active than lithia, it clears the heart valves of any sandy substances which may clog them and checks the degeneration of the blood-vessels, as well as regulating blood pressure. "Anuric" is a regular insurance and life-saver for all big meat eaters and those who deposit lime-salts in their joints. Ask the druggist for "Anuric" put up by Dr. Pierce, in 50-cent packages.

STRENGTH AND BEAUTY

Come with Dr. Pierce's Golden Medical Discovery. This is a blood cleanser and alterative that gives the skin a smooth, clear, and healthy appearance. It assists the body to manufacture rich red blood which feeds the heart, nerves, brain and organs of the body. The organs were smoothly like machinery running on oil. You feel clean, strong and vigorous instead of weak, sick and tired.

What Does Your Food Cost?

You could easily spend two dollars for a meal and not get as much real, body-building nutriment as you get in two Shredded Wheat Biscuits, the food that contains all the muscle-making material in the whole wheat grain prepared in a digestible form. Two Shredded Wheat Biscuits with milk or cream will make a complete, perfect meal, at a cost of not over five cents. A food for youngsters and grown-ups. Eat it for breakfast with milk or cream; eat it for luncheon with fresh berries or other fruits. Made at Niagara Falls, N. Y.

CHINA STIRRED BY SUSPENSION OF PAYMENT

Charge That Government Used Bank's Funds to Maintain Itself.

PEKING, June 23.—China has been much stirred by the action of the government on May 12 in suspending specie payment on the notes of the Bank of China and the Bank of Communications, the two government institutions having branches throughout the principal cities of China.

Recently there was a great rush to withdraw funds from these banks because of charges made by the enemies of the government that the late Yuan Shi-kai administration was utilizing the bank's funds to maintain itself. Furthermore the recent high price of silver has caused much speculation in the white metal, and resulted in its transfer and exportation.

Tien-tsin has been a great center for politicians out of sympathy with the present government, and it was there that the rush to withdraw funds from the Bank of Communications first began on a large scale. It soon became apparent that the limited reserves would not stand the drain, and Premier Tuan Chi-jui and his cabinet declared a limited moratorium. The moratorium does not extend to individuals, but merely to the financial affairs of the government. It provides that the government banks shall not redeem their notes in hard money, and shall not permit the depositors to withdraw their funds from the banks.

With the suspension of specie payment on the notes of the two banks, business in Peking came to a sudden halt. The cabinet mandate provided that all persons must accept the notes of the two banks at their face value or undergo severe punishment. Soldiers and policemen have been stationed in the various parts of the city to enforce this order in shops.

Nevertheless, merchants have found means of evading the order. Nearly all prices in the city have been raised, and when merchants feel that payment will be made in Chinese bank notes, they frequently advance their prices to a point that is prohibitive in order to avoid sales.

Peking is, in fact, threatened with famine as a result of the partial moratorium, for farmers and produce dealers will not bring their products to Peking, as they do not desire to be paid in the depreciated paper bank notes of the two government financial institutions.

Vegetables Scarce. Grains and all sorts of vegetables are getting very scarce, and the Chinese chamber of commerce and local grain merchants have petitioned the government urging it to derive means to relieve the situation. There is a plan on foot to establish official granaries and depots in which all sorts of food stuffs will be handled by the government for sale at normal prices. All sorts of food stuff have advanced in price from twenty to 100 per cent.

One of the worst features of the limited moratorium, is the criticism directed at foreigners by the vernacular press. Many of the Chinese newspapers are declaring that foreigners have bought up all the silver and gold in China, and are responsible for the depreciation of the notes of the Bank of China and the Bank of Communications. Posters making this announcement have been pasted on many of the dead walls in Peking, and Chinese papers are encouraging the populace in this belief. Foreigners are already beginning to feel the unfriendly attitude of the masses, who have accepted the statements of unreliable papers and are quite willing to believe that Europeans, rather than Chinese officials, are responsible for the present financial conditions in China.

Coolies, hucksters and small merchants, whose business has been almost entirely ruined by the moratorium, are becoming especially curt in their treatment of foreigners. The newspapers are discussing the organization of a clearing house in Peking for foreign and Chinese merchants to relieve the money stringency.
